Bell Library - Media Center

The Bell Library Media Center provides the Texas A&M University-Corpus Christi community with access to a variety of media materials. Our collection consists of video cassettes, laser discs, motion pictures, DVD's, CD's, Computer software, and art slides. The Media Center has 4 viewing rooms that are equipped with a Television, DVD player, and VCR. We also provide a laser disc player, a stereo, and cassette tapes, along with handheld cassette recorder.

Students may check out items for 3 hours to be use in the Media Center only. Faculty and Staff are welcome to check out media material for a two-week period unless the video has already been placed on reserve by another professor. Reserve videos are available for a one-day checkout for anyone other than the professor who placed it on reserve. For professors who would like to place a video on reserve please fill out a video reserve request form located at the bottom of this page.

The Media Center computer lab is provided for the use of reserved software requested by Faculty. The lab consists of 28 Dell workstations with 16 scanners all computers come equipped with CD-R CD-RW/DVD drives. Two workstations with scanners, also known as SD computers, are designated for students with disabilities.

As part of the Bell Library, the Media Center seeks to support students in their academic endeavors by furnishing materials to supplement and enhance classroom learning and research. Our goal is to maintain a media collection that is representative of the curriculum offered by the University's five major colleges: Liberal Arts, Business, Education, Nursing & Health Sciences, and Science & Technology. The Media Center staff assists patrons in locating all media materials and using the media equipment.

We invite questions and/or comments and look forward to hearing from you. Contact Josie Garcia at josie.garcia@tamucc.edu, 361-825-2793.
