LOCATION

- Texas A&M University-Corpus Christi is located in the beautiful coastal city of Corpus Christi, also known as "The Island University." TAMUCC is located on a 240-acre island and boasts its own beach and easy access to miles of Gulf Coast beachfront.
- With a population of 300,000, Corpus Christi offers a wide variety of attractions and activities as well as plenty of entertainment and nightlife.
- Students at TAMUCC enjoy sunshine and blue skies 255 days of the year. Winter temperatures average 59°F, while summer temperatures average 83°F.

Especially popular with young people, this coastal city was named one of the nation's top 10 Spring Break destinations. Corpus Christi is just minutes away from Padre Island, a popular beach resort.

CAMPUS

Texas A&M University-Corpus Christi is a state university and a member of the Texas A&M University System. Enhanced by a tropical landscape, TAMUCC is recognized for its 8200 students and state-of-the-art audio-video and computer equipment located in many of the classrooms. Other modern facilities located on campus include visual and performing arts facilities, the University Center, which houses a food services area, a bookstore and other shops, a post office, a bank, and entertainment areas; the Glasscock Fitness and Wellness Center where students can work out; and computer laboratories equipped with various types of personal computers, full-page scanners, laser printers, and graphic stations. For students who do not have cars, a city bus stop is conveniently located on campus.

ACADEMIC EXCELLENCE

Texas A&M-Corpus Christi is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, and doctoral degrees. The University is committed to helping students to succeed and attain their future goals by offering quality higher education and a diverse selection of student activities and organizations. More than 91 percent of the faculty holds the highest degrees in their fields, and the student-to-faculty ratio is only 17:1.
TAMUCC offers 36 undergraduate and 26 graduate degree programs. TAMUCC’s College of Science and Technology is the academic home to several major coastal, marine, and environmental research units, providing students hands-on experience in unique, non-traditional settings. The geographic information science program is the only one of its kind in Texas. In fact, the University was one of the first campuses in the United States to offer GIS technology as a separate academic discipline. This program is accredited by the Applied Science Accreditation Commission (ASAC) of the Accreditation Board for Engineering Technology (ABET). TAMUCC also offers both Bachelor of Science and Master of Science degrees in computer science.

- The business bachelor’s and master’s degree programs are accredited by AACSB—The Association to Advance Collegiate Schools of Business. The University’s accounting students have a record of passing the CPA exam at a rate that places TAMUCC among the top public universities in Texas.

TAMUCC is ranked in the same tier as the following outstanding universities:

- West Texas A&M University
- Cal State University-Northridge
- Southern Utah University
- Long Island University-C.W. Post
- University of New Haven
- University of Dallas
- University of Omaha
- Slippery Rock University
- Western Oregon University
- University of Findlay
- Whittier College

**ACTIVITIES**

Texas A&M–Corpus Christi offers an incredible lifestyle with a wide range of student activities and programs designed to help students explore their abilities and reach their potential. Corpus Christi is a thriving city with all kinds of entertainment geared to the young adult crowd. Students can enjoy hundreds of concerts, shows and plays, sporting events and festivals.

**HOUSING**

Living on campus adds an extra dimension to a student’s university experience. University housing offers spectacular bay views, a clubhouse, and a swimming pool. The recreation room has a pool table, ping pong table, fitness center, games, and a big screen television.

The campus apartments are furnished and have individual bedrooms. Students share a living area and full-sized kitchen with microwave, dishwasher, stove, refrigerator, garbage disposal and icemaker. Each apartment is wired for high-speed Internet access, local phone service, and cable television. The cost per month includes furniture and utilities (electric, gas, water, local phone and cable).

The residence halls feature two adjacent suites with a shared bathroom. Each room includes a compact microwave and refrigerator. A combination kitchen-laundry facility and group study/meeting room is available on each floor. All residence hall rooms are wired for high-speed Internet access, local phone service, and cable television.
