Sec. 61.822. CORE CURRICULUM. (a) The board, with the assistance of advisory committees composed of representatives of institutions of higher education, shall develop a recommended core curriculum of at least 42 semester credit hours, including a statement of the content, component areas, and objectives of the core curriculum. At least a majority of the members of any advisory committee named under this section shall be faculty members of an institution of higher education. An institution shall consult with the faculty of the institution before nominating or recommending a person to the board as the institution's representative on an advisory committee.

(b) Each institution of higher education shall adopt a core curriculum of no less than 42 semester credit hours, including specific courses comprising the curriculum. The core curriculum shall be consistent with the common course numbering system approved by the board and with the statement, recommendations, and rules issued by the board. An institution may have a core curriculum of other than 42 semester credit hours only if approved by the board.

(c) If a student successfully completes the 42-hour core curriculum at an institution of higher education, that block of courses may be transferred to any other institution of higher education and must be substituted for the receiving institution's core curriculum. A student shall receive academic credit for each of the courses transferred and may not be required to take additional core curriculum courses at the receiving institution unless the board has approved a larger
core curriculum at the institution.

(d) A student who transfers from one institution of higher education to another without completing the core curriculum of the sending institution shall receive academic credit from the receiving institution for each of the courses that the student has successfully completed in the core curriculum of the sending institution. Following receipt of credit for these courses, the student may be required to satisfy further course requirements in the core curriculum of the receiving institution.

(e) The governing board of a general academic teaching institution that offers a joint baccalaureate degree program under a contract with a foreign college or university may, in consultation with the foreign college or university, identify and approve courses offered by the foreign college or university that are equivalent to, and may substitute for, courses in the core curriculum of a student enrolled in the joint degree program who is considered to be primarily a student of the general academic teaching institution.
