Texas A&M University-Corpus Christi is the only one in the nation that is located on its very own island. With palm trees lining the pathways throughout the 240-acre campus, nearby natural wetlands, and a beach the full length of its Ocean Drive address, Texas A&M-Corpus Christi becomes a first-choice destination for many. Our attitude stays young because we are able to adapt quickly to new technologies and engage new energies. These are important assets when students seek a university that takes the lead, rather than follows.

We invite you to come see why we are one of the fastest growing universities in the state of Texas. Visit the Island University today!

**Campus tours**
The Office of New Student Programs provides campus tours to all prospective students and their guests. These tours are conducted by the Island Ambassadors, a group of volunteer students who are trained in campus history, admissions information, and are able to answer your questions about campus life, events, and classes. For more information about touring the university, or to schedule a campus tour, click here.

**Island Day**
Each year Texas A&M University-Corpus Christi hosts a series of open houses in order to give students a first-hand look at what the university has to offer. Prospective students and guests are encouraged to take this opportunity to visit with staff and current students and get a sneak peek at what campus life is all about at the Island University. By attending Island Day, you’re invited to get a head start on the application process, living arrangements, and financial assistance. Representatives from various departments will be on-site to answer any of your questions and assist you in obtaining the tools you need to achieve at Texas A&M-Corpus Christi. To learn more about our Island Day program, click here.

**Travel and Accommodations**
Not too sure how to find us? Need a place to stay while you are here? Be sure to check out our driving directions and hotel accommodations pages.
