Getting the most out of your college experience

College Student Inventory™
FORM B
Michael L. Stratil, Ph.D.

Part of the
Retention Management System™

Noel-Levitz®
Dear Student,

The COLLEGE STUDENT INVENTORY™ is part of a carefully designed program that can help your institution determine how you learn best. After completing the inventory, the results will be used in two ways.

First, you will receive a report of your results. Your advisor or someone from the student service offices will discuss these results with you and make you aware of follow-up activities that fit your interests and needs.

Second, staff will use the summary of all results for your class to plan a program of support services.

While completing the inventory and participating in the follow-up activities are voluntary, you are strongly encouraged to take advantage of these opportunities. They are likely to have a very beneficial effect on your entire educational experience.

The inventory has multiple sections, each with its own set of instructions. Complete each part as accurately as you can.

• **Answer every item.**
  
  • If you change an answer, be sure to fully erase your initial response.
  
  • Use a number 2 (medium) black lead pencil in answering all parts of this inventory.

By completing and returning this answer sheet, you give consent to its release to Noel-Levitz for the purpose of scoring, processing, and preparing reports.

**Go now to Part A and read the next set of instructions.**

---

*Each of us learns in a different way. We focus attention on somewhat different dimensions of the world around us, we have somewhat different understandings of the world, and we strive for quite different kinds of personal growth. We can only achieve our full potential when these forces of individuality are meshed smoothly with the learning process.*

PART A

Instructions. By completing and submitting this inventory, you give consent to its release to Noel-Levitz for the purpose of scoring, processing, and preparation of reports for yourself, your advisor, and your college or university.

Use a number 2 black lead pencil in answering all parts of this inventory. Do not use ink or ball point pen.

1. On the front of the answer sheet, find the area for your name. It looks like this example:

<table>
<thead>
<tr>
<th>LAST NAME</th>
<th>FIRST NAME</th>
<th>MI</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Print your last name in the 12 spaces provided. If your last name is too long, abbreviate it. Do not go past the line that divides the last and first name. Do the same for your first name and your middle initial.

2. Blacken the circles that represent the letters in each part of your name. Be sure to completely fill each of the appropriate circles. Erase any stray marks or errors.

3. Move down to the area marked “GROUP NUMBER.” The examiner has written this number on the board (or will read it to you). Print the number in the spaces provided. Be sure to include any 0’s that are in that number.

4. Print your age in the next section.

5. In the section designated for GENDER, blacken one of the circles (either “M” or “F”).

6. In the last section, print your student identification number. This number will enable your institution to avoid misidentifications in cases where more than one person has the same name. If you do not wish to provide it, enter 123456789.

7. Blacken the appropriate circles under GROUP NUMBER, AGE, and IDENTIFICATION NUMBER.

GO TO PART B.
1. While enrolled in classes, the amount of time I expect to spend working at a job is approximately:
   1) 0 (I have no plans to work)
   2) 1 to 10 hours per week
   3) 11 to 20 hours per week
   4) 21 to 30 hours per week
   5) 31 to 40 hours per week
   6) over 40 hours per week

   Note: This item only applies to time frames during which you are actually attending classes. It does not apply to summer employment, school breaks, or other such periods. If your work schedule varies, take a rough average across weeks.

2. The average of all my grades during my senior year in high school was approximately:
   1) A
   2) halfway between A and B
   3) B
   4) halfway between B and C
   5) C
   6) halfway between C and D
   7) D

   Note: If your school did not use letter grades, do your best to translate your grades into the above system. If you completed a GED, try to estimate the grades you think you would have earned for your last ten GED courses if you had been taking them as regular high school courses. It is recognized that making this estimate will be difficult; just try to give your best estimate.

3. The following item is about your general academic knowledge. This consists of the ideas and facts you have learned through the core courses designed to prepare you for college (e.g., English, mathematics, science, and social studies).
   Compared to the average high school graduating senior in this country, I consider my general academic knowledge to be in the:
   1) highest 20%
   2) next to the highest 20%
   3) middle 20%
   4) next to the lowest 20%
   5) lowest 20%

4. I would describe my racial/ethnic origin as:
   1) Black/African-American
   2) American Indian or Alaskan Native
   3) Asian or Pacific Islander
   4) White/Caucasian
   5) Hispanic or Latino
   6) Multiethnic or other ethnic origin
   7) Prefer not to respond

PART B

Instructions. The main body of the inventory contains 100 items. The items in Part B have up to seven multiple choice response options. For example, item 1 appears as follows on the answer sheet:

<table>
<thead>
<tr>
<th>Item number</th>
<th>Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>1 2 3 4 5 6 7</td>
</tr>
</tbody>
</table>

Notice that the answer sheet always provides seven circles even though some items offer fewer than seven options. Ignore the extra circles.

Answer each item by selecting the option that best describes you. Blacken the circle that corresponds to the option you have selected.

If you have difficulty answering any of the items in this section see your examiner. Begin with the first item and continue to the end of Part B.

8. Academic ability is the general capacity to understand and remember complex ideas through formal education. It involves learning through such media as books, lectures, written assignments, and computer programs.
In relation to the general population of our society, I consider my academic ability to be:
   1) considerably below average
   2) slightly below average

   5) considerably above average (in the top 20%)

PART C

Instructions: Items in Part C measure a variety of attitudes toward college.

Use the following rating scale to answer each item:

<th>RATING SCALE</th>

<tr>
<td>NOT AT ALL TRUE</td>
</tr>
</tbody>
</table>

If you agree completely with a statement, you should answer with a “7.” Agreement that is fairly strong but not total is indicated by selecting a “5,” while agreement that is fairly weak is indicated by “3.” Total disagreement is indicated by selecting “1.” Use any number between 1 and 7.

Keep in mind that there are no “right” or “wrong” answers. Simply select the answer that best fits you.

In answering the items on study habits and teachers, you should draw primarily on your pre-college experiences.

Blacken the appropriate circle on the answer sheet. Give only one response to each item.
