Kinesiology Meeting Minutes
March 6, 2009

Present: Dr. Randy Bonnette, Chair
Dr. Liette Ocker
Mary Barnes
Dr. Frank Spaniol
Dr. Don Melrose

Absent: Dr. Randall Johnson
Dr. Frank Spaniol

Agenda items:

1. ADEP – ADEP folders are due on Monday, March 9, 2009.

2. UPDATE on New Building – Construction is 30 days ahead. Move in date is estimated at March of 2010. Date of final inspection is April 20, 2010. Faculty could move in during March and could continue through end of spring. Department discussed possibly moving classes in to the labs during summer sessions.

3. Outcome Assessments for 2008-2009 Discussion
   a. Dr. Bonnette presented test results for students in all specializations.
   b. For each B.S. in Kinesiology area (EC-12, Exercise Science, PT/OT Prep and Sport Management) student average scores were above the 75 percentile.
   c. B.S. Athletic Training had three students sit for licensure exams.
      i. Two took and passed the state exam.
      ii. One took and passed the national exam.
   d. M.S. in Kinesiology – first student (Mando Avila) completed all coursework and took his comprehensive exams in July and passed.
   e. Dr. Bonnette suggested that though students have been very successful the group look more closely at mission statements, objectives and tests be re-visited.

   a. General Mission Statement is used for all 4 specializations in Kinesiology. Dr. Bonnette questioned on whether statement should be specific to each specialization or kept the same. Discussion ensued. The final decision by the faculty is to keep the Kinesiology Mission Statement but also add 1-2 lines making it specific to the individual specialization. The following faculty will work on the individual specialization statements and bring them to the rest of the faculty for approval or revisions.
      Dr. Melrose and Dr. Spaniol – Exercise Science
      Dr. Liette Ocker – Sport Management
      Mary Barnes – Pre-Physical Therapy/Pre-Occupational Therapy
      Deadline to have this done is March 12, 2009.
      Decision was made to leave the Mission Statement for EC-12 Physical Education Certification Specialization alone.
   b. It was agreed that Outcomes/Objectives should be specific to specialization. The above mentioned faculty will work on objectives for respective specializations. The deadline for this is April 15, 2009. Those will then be brought to the faculty for approval or revisions.
   c. In the past, there has been a capstone test given to the interns in the Professional Field Experiences II course. These questions covered a majority of the 4000 level courses. However, the test must be revised to include more of the knowledge base of each of the specializations. A test bank was requested from Dr. Ocker for knowledge-based questions in
the Sport Management Specialization. The department will look into the test bank questions, and update or add to as deemed necessary. Deadline for these questions is March 26, 2009.

d. Other sections will be discussed at a later meeting.

5. BUDGET cuts – There will be budget cuts for the summer. We will run the fall as usual.

Meeting was adjourned.

Respectfully submitted for review and revision.

Liz Perez
