Faculty Meeting  
Friday, January 30, 2009

The meeting was called to order by Jack Gron, chair, at 9 a.m. The minutes from January 23, 2009 were approved.

WEAVE Assessment – Based on faculty input, Jack shared the latest updates to the WEAVE document. Carey said she has the original assessment form for ARTS 1301, 1303 and 1304. She will e-mail the document to Jack. The goals of these courses were to teach aesthetics, as well as critical thinking. BFA students have the senior evaluation form to illustrate that students are learning; BFA-TC students must pass the state administered TExES Certification test. Louis suggested that BA students submit images to the faculty to show their success as they finish their degree. Mack added that detailed instructions (pixels, etc.) should accompany the directions for submission of images.

Jack included the need for faculty lines in Painting and Art History as well as three additional graduate teaching assistantships.

Discussion began about the need to change the targets under the BA degree. It was suggested that 75% of students earn a grade of C or better on term papers and 75% of graduating seniors will receive grades of B or better in art history classes.

The meeting adjourned at 10:45 a.m.
