College of Nursing and Health Sciences  
Clinical Evaluation

Course: NURS 3628  
Clinical Agency: M  
Student: _______ Two _______  
Term: XX Fall 2008 Spring 200 Summer 200  
Faculty: Stetina  
Days Absent: 0 Days Tardy: 0 Total Clinical Days: 13 (had two hurricane days)  
Written Assignments Complete: yes  
Pass: XX Fail: ___________

Performance Summary

Instructor Comments: _______ has successfully completed NURS 3628 clinical. She was able  
to provide total patient care for 1 patient. _______ demonstrates good beginning critical thinking  
skills. _______ provided safe, appropriate patient care with direction. _______ maximized her  
learning opportunities with every situation and is clearly eager to learn. She communicates  
compassionately with patient, staff, and peers. She is willing to help wherever needed and is very  
professional in her demeanor. Areas for growth: _______ occasionally became flustered in  
performing tasks, which provided initial concerns for safety. _______ performance improved  
through her self-directed practice in lab and supervised clinical practice as she progressed in the  
clinical rotation; I feel her performance will continue to improve as _______ gains confidence in  
performing skills and in her decision making.

Student Comments: I agree with the assessment and will continue to  
practice in the lab and work on confidence building and anxiety relief.

**Comments:**

---

**Goal Setting**

1. Formulated priority nursing diagnoses in the physiological, psychological, psychosocial, and developmental domains.* ✓

2. Formulated realistic, individualized goals for patient care based on the problem component of each diagnosis.* ✓

3. Identified measurable goals that included an estimate of time for attainment.* ✓

4. Identified goals that reflected the diversity and potential of the client.

**Planning**

1. Collaborated with client and family in planning care incorporating sociocultural and ethnic beliefs and values.* ✓

2. Communicated with health care professionals in planning care.

---
3. Identify major discharge planning needs.  
4. Delineates time management plan in prioritization and provision of care.  

Comments: ________________________________

**Implementation**

1. Provided safe and competent care to client and family.*

2. Interventions were based on identified client and family priorities.

3. Interventions were based on theory/research.

4. Provided culturally sensitive care.

5. Demonstrated progress in implementing planned interventions.

6. Fostered increased responsibility and independence of each client.

Comments: ________________________________

**Evaluation**

1. Identified client and family responses to interventions.*

2. Modified interventions based on changes in client condition.

3. Evaluated the plan of care from research and theoretical perspectives.

4. Constructively evaluates own strengths and limitations with preceptor and/or faculty.

Comments: ________________________________

**Accountability**

1. Protected client rights and confidentiality consistently.*

2. Followed clinical agency policies and procedures and standards of care.*

3. Validated data base information and nursing diagnoses with client.

4. Differentiated the responsibilities of all members of the health care team.

Comments: ________________________________
5. Practiced safety-based client care consistently (Medication 5 Rights, Universal Precautions).*

Comments: Had near miss on medication error.

Critical Thinking
1. Demonstrated ability to think critically and problem-solve in increasingly complex care settings.*

2. Applied data collection methods to identify and evaluate practice, activities, problems.*

3. Differentiated between services and functions of various hospital and community resources in planning care.

4. Documented patient status and nursing actions appropriately.*

Comments: Beginning critical thinking skills.

Education
1. Identified major client and family teaching needs.*

2. Knowledge deficits based on data base and problem list.

3. Client teaching based on research/theoretical framework.

COORDINATOR OF CARE
Resource Management
1. Evaluated care provided by health care team.

2. Identified appropriate referrals and resources to meet client needs.

3. Delegated duties appropriately within facility/State Board of Nursing guidelines.

4. Participated in multidisciplinary health care conferences.

Collaboration
1. Utilized client, family, agency, and community resources in planning health care delivery.
2. Evaluated communication styles and patterns between client, family, agency, and/or community in planning and delivering care.

3. Analyzed health care delivery as utilized by client and family.

Comments: ____________________________

---

**Referrals/Continuity of Care**

1. Assessed support systems of client and family. ✔

2. Referred client and/or family to appropriate resources to meet identified health care needs. ✔

Comments: ____________________________

---

**Facilitation**

1. Demonstrated beginning leadership skills in meeting health care management goals. ✔

2. Identified resources in agency/community to assist with legal/ethical issues. ✔

3. Collaborated with health care team in providing safe, cost-effective care. ✔

4. Facilitated multidisciplinary approach to client care by coordinating delivery of services. ✔

5. Utilized therapeutic communication in working with peers, staff, and clients. ✔

Comments: ____________________________

---

**MEMBER OF A PROFESSION**

**Quality Appraisal**

1. Applied legal/ethical principles in evaluating care provided by self and others.* ✔

2. Identified need for assistance in providing care. ✔

3. Identified strategies for improving care provision by self and others. ✔

Comments: ____________________________
Advocacy
1. Advocated for client and family in meeting health care needs.*
2. Identified problems client/family had in accessing care.
3. Identified impact of current issues and trends on the quality of nursing and health care delivery.

Comments:

Professionalism
1. On time and prepared for clinical experience.
2. Maintained agency and school policies pertaining to dress code, attendance, lateness.
3. Reported errors and/or changes in client condition to instructor immediately.*
4. Selected challenging learning experiences in order to meet clinical objectives.
5. Utilized appropriate suggestions and guidance of instructor in a professional manner; behavior and work reflects feedback given by instructor.
6. Accepted responsibility and accountability for own nursing practice.*
7. Fostered ethical, legal, and professional awareness in others to promote a positive image of nursing.
8. Participated in activities that promoted consumer awareness of Nursing’s contribution to society.

Comments: Very responsible and accountable for own actions.
